

There are many critical paths in this sprint of short length as we are finishing off the website, therefore there are a lot of independent pieces. The critical paths are: BYT-211 -> BYT-215, BYT-216 | BYT-6 -> BYT-209, BYT-195 | BYT-187 -> BYT-198

What to do keep on schedule:

1. Ensure that BYT-211, BYT-6, BYT-187 are completed asap. Thankfully they weren't valued at many story points.
2. Start the sprint as soon as possible
3. Discuss ideas and exchange ideas on how to solve any problems that arise.
4. Ensure that sprint messages are completed and everyone giving updates
